# BIOGRAPHY

## FRIEDER & JAKOB

South German based Artists and best friends **Frieder & Jakob** already started in 2005 organizing their own partys, small festivals & outdoor raves. This way they established themselves as DJs playing over the years several genres of electronic music. Their style is best described as melodic techno, easy to dance to and always with positive energy. As the owners of their own club in southern Germany, they first came into contact with Boris Brejcha, Ann Clue and their label Fckng Serious in 2016 and have been friends and partners since then. Now they produce their own music for Fckng Serious and touring alongside Boris, Ann Clue, Moritz Hofbauer & Deniz Bul.
